Subject: Application for the position of Software Requirements and Quality Analyst

Dear Datacenter S.A.S

Greetings. My name is July Andrea Herreño González, and I am writing to apply for the position of Software Requirements and Quality Analyst, which I found to be of great interest due to its alignment with my skills, experience, and professional aspirations.

I am a professional with experience as a Contact Center Operator, which has allowed me to develop key competencies such as attention to detail, effective communication, user needs analysis, and problem solving. These skills are essential to successfully perform the role of Requirements Analyst, which requires understanding, documenting, and validating customer needs, as well as ensuring the quality of the software delivered.

In addition, I have a strong ability to work in a team, adapt to dynamic environments, and quickly learn new tools and methodologies. I am confident that I can add value to your company through a user-centered vision, commitment to continuous improvement, and focus on process quality.

I look forward to receiving any additional information you may require and to the possibility of arranging an interview to discuss how I can contribute to the success of your team.

Contact details:

Phone: 3115542457

Email: july.herreno@dcsas.com.co

Location: Soacha - Cundinamarca

Thank you in advance for your time and consideration.

Sincerely,

July Andrea Herreño González
